RE: JP 30508 52nd W AVE and 133rd ST Intersection Project

86 public comments were received in response to the public meeting regarding this project. I would like to thank each one of you who came to the public meeting held on July 20th, 2017. I would also like to thank each of you who has taken time to make suggestions and had input on this project. With the increase in traffic and the number of accidents that have happened and will continue to happen, I believe we need to make the necessary improvements to this intersection.

After careful consideration, I have chosen Option B for this project. I believe it will provide the safest route thru this intersection. We will continue to make the current intersection as safe as possible until the time the project is complete. This project could possibly begin in 2020.

Thank you for your concerns and efforts regarding this project. As we continue forward, I will try to and answer any questions you might have about this project.

Respectfully,

Kevin Paslay, Commissioner
Osage County District 2
